

To The Institute Am HaZikaron

A big thank you from all of us! The seminar "My Jewish Roots" went very well and we got a very positive response from our participants. We were planning it for quite a long time and were really nervous about it coming to fruition. Had it not been for you, who took up the reins, we would have never seen it succeed like it did. All thanks to your tireless team, hard-working administration and backend management. Special thanks to the lead of the project Itzhak Fouxon, actors – Gennady Yusim and Maria Belkin, and genealogy researcher Nelly Rosenberg.

We really wanted so much to thank the sponsors however since they prefer to stay anonymous we say it here - thank for the unique opportunity for our Jewish youth! The great vibe at the event, the excellent acting of your actors that made the event unforgettable were so amazing to experience. Your work has been really commendable. I must admire your camaraderie, the team spirit and team support in making this event a favorite for our participants. Thank you for making everything perfect.

Thank you again for the time and dedication to the event. Our team is looking forward to working with you in the future.

Thank You!
